Older versions of ZOOM Cloud Meetings are also available with us 5.4.7.946 5.4.6.812 5.4.4.615 5.4.2.524 5.4.1.453 5.4.0.434 5.3.52291.1011 5.3.52883.0928 5.3.52640.0920 5.2.45120.0906 5.2.45092.0831 5.2.44042.0816 5.2.42588.0803 5.1.28652.0706 5.1.28573.0629 5.1.27838.0614 5.0.26211.0602 5.0.25692.0524 5.0.24973.0517 5.0.24050.0510 5.0.23478.0429 4.6.20553.0413 4.6.20000.0407 4.6.19194.0323 4.6.18174.0301 Instruction on how to install ZOOM Cloud Meetings on Windows XP/7/8/10 Pc & Laptopin this post, I am going to show you how to install ZOOM Cloud Meetings on Windows PC by using Android App Player such as BlueStacks, Nox, KOPlayer, ... Before you begin, you need to download the APK installation file, and you can find the Download button at the top of this page. Save Location. [Note]: You can also download an earlier version of this app at the bottom of this page. You can find a detailed step-by-step guide below, but I would like to give you a quick overview of how it works. All you need is an emulator that allows you to emulate android devices on your Windows PC and install and use the app - you can see you're actually playing on Android, but it won't run on your smartphone or tablet, it will run on your PC. If it does not work on your PC, or if you can not install, comment here and we will help you! Install Using BlueStacks NoxPlayerDownload and Install Blue Stack: Http://bluestacks.comOpen apk file: Double-click the APK file, run the Blue Stack and install the application. If the APK file doesn't automatically open BlueStacks, right-click and select Open... You can look for bluesacks. You can also drag and drop apk files on the Blue Stack home screen and then after installation, just click Run, it will :D Works like a charm. Download and install NoxPlayer: . Installation is easy to perform. Drag and release the APK file to Knox. The file manager is displayed. Click the open XXX folder button under the file symbol that turns blue. Then install the apk downloaded to Knox on your computer or fix the Nox.General feature - partial encrypted conference alert issue - minor bug fix December 21 to December 21 08, 2020-Minor Bug Fix November 18, 2020-Minor Bug Fix November 09, 2020 Troubleshooting Issues - Minor Bug Fixes October 28, 2020 Conferencing/Webinar Features - Support camera conferencing for live streaming on YouTube from mobile-enabled flashlights - End-to-end (E2E) chat meeting invitations and search-users for phone calls Connect files for channels Search for additional channels - File - Connect to shared channels - Change ringtones Mobile phone features for busy call queue members - Call notifications - Specific call queue resolution issues - Minor bug fixes October 26, 2020Webinar features hyperlink support Q&A another panel dismisses hidden questions from attendees A Indicates that you are responding to a question 12.00 Issue - Minor Bug Fixes, 2020/Webinar Features - Shared Camera Fix Issues - Minor Bug Fixes September 28, 2020 - Minor Bug Fixes August 25 - Minor Bug Fixes July 16 - Conferencing Features - Login Latency - Minor Bug Fixes June 22, 2019 Voice-To-Voice Transfer-Voice Mail-Unsubscribe 2019 Voice-Mail Unsubscribe Call Queue Resolution Issues - Minor Bug Fixes 2019 -Conferencing - Option to disable chat during a call - Recorded verification support for participants to sign in to multiple devices - Change times - Improved accessibility - Create personal contacts [Unauthorized Re-res and Reporter Park Jin-yin] [Phone number] The option to disable [Phone] 2019-Talks-On-Call Chat allows participants to create a personal contact group by changing the CRC device without starting the conferencing option, which allows participants to change the name of recorded verification support for logins in multiple devices. 2019 -Minor bug fix application can write to external storage. The application can be read from an external repository. The application can open the network socket. It only allows access to the phone status, including the phone number of the device, current cellular network information, ongoing call status, and a list of PhoneAccounts registered with the device. Allows the application to access information about the network. Allows the application to access information about the Wi-Fi network. The application can modify global audio settings. Allows the application to record audio. The camera device must be accessible. You can access the vibrator. The application can connect to a paired Bluetooth device. The application can detect and pair Bluetooth devices. Allows the application to broadcast sticky intents. Allows the application to read the user's calendar data. The application can create the user's calendar data. The application can read the user's contact data. You can use PowerManager WakeLocks to prevent the processor from going to sleep or darkening the screen. The application can start the call without the user going through the Dialer user interface to verify the call. Ensure that your app has access to the correct location. Allow your app to access approximate locations. The app can create a window using TYPE_APPLICATION_OVERLAY format shown above all other apps. If your application ACTION_REQUEST_IGNORE_BATTERY_OPTIMIZATIONS, you must have permission to use it. Make fingerprint hardware available to your app. The application can request the installation of the package. Start or sign up for secure meetings with complete video and audio, instant screen sharing, and cross-platform instant messaging from anywhere. Zoom provides customer satisfaction and the best Unified Communications experience #1. It's super easy! Install the free zoom app, click on new meetings and invite up to 100 people to join the video! Android-based phones and tablets, other mobile devices, Windows, Mac, Zoom Room, H.323/SIP room system, connect with anyone on the phone. Video conferencing quality from the best video conferencing quality anywhere - easily join a meeting or start a meeting immediately with a phone, email, or company contact Screen sharing quality - co-shared content - real-time whiteboard co-sharing on shared content - real-time whiteboard joint electronic messages (photos, files, and more) - people who can easily send messages, files, images, links, and GIFs - respond quickly or sign up for public and private chat channel SMAKE, receive, and manage phone calls by making easy recordings of your business number-get voicemails and calls, and receive calls on behalf of other people-set automatic receptionists, autonomously answer and route calls and route calls, and more...
